EXPERIENCE

Cook Systems – Memphis, TN 09/22 – 11/22
FastTrack Developer

Social Media Project API

- Implemented a RESTful API to resemble the conceptual model of Twitter

Who's Who

- Established a front-end web application using Spotify's API in order to get genres, artists, and sample songs for the user to guess from

Project Management Application

- Created a full stack web application using Spring Boot and React for users to login and view announcements and projects

LEADERSHIP

Association for Computing Machinery – Memphis, TN 08/20 – 12/21
Student Chair

- Established key relationships with club members, other chairpersons, and professors by accommodating educational workshops and social events for networking and student engagement in the club
- Ensured the organization is responsible and reliable for upcoming events by providing training for future chapter leaders
- Earned revenue for the organization by hosting bake sales, collecting fees, and maintaining the club's monthly expenses alongside the treasurer

PROJECTS

Discord Utility Bot 8/22 – Present

- Added basic functionalities for reading and sending messages to the user

React Portfolio 11/22 – 12/22

- Utilized React libraries and JSX to create a simple, minimalistic web page to showcase the home screen, about page, projects, and contact form
